

List of Possibilities

Backcountry/Wilderness Area

Check box for possibilities you support

#	<input checked="" type="checkbox"/>	Possibilities
<i>Preserves</i>		Consider creating additional Natural Preserves
20		Designate Santa Cruz Cypress habitat as a Natural Preserve
21		Designate Monterey Pine habitat as a Natural Preserve
<i>Waddell Creek Road</i>		A land slide in several locations has eroded multiple sections of Waddell Creek Road between Twin Redwoods and Camp Herbert
22		Repair slide area and reopen West Waddell Creek Road for service and emergency vehicles and reopen Camp Herbert
23		Close West Waddell Creek Road north of the slide area to vehicle access. Road to remain as a trail.
<i>Wilderness</i>		Consider increasing the size of the West Waddell Creek State Wilderness with appropriate facilities
24		Increase Wilderness area by 500 ac
25		Increase Wilderness area by over 4,000 ac. Eliminate mechanized use (including mtn. bikes) on Gazos Creek road due to wilderness expansion.
26		Include segment of West Waddell Creek road (located north of Camp Herbert) within Wilderness boundary (remove cherry stem) thus eliminating mechanized access (including mtn. bikes)
27		Add additional Backcountry campsites along West Waddell and Gazos Creek Road.
28		Add additional interpretive displays/ panels in the backcountry
<i>Trailheads</i>		Consider creating and/or enhancing trailhead access and small picnic facilities points outside of the old growth redwoods:
29		Intersection of China Grade Road and Johansen Road
30		Whitehouse Canyon Road (Ano Nuevo State Park)
31		Gazos Mountain Camp (Butano State Park)
<i>Trails</i>		Consider adding additional trails and connections
32		Encourage regional trail connections by pursuing multiuse (hiking, equestrian, mt. bike) trail easements land acquisitions from willing sellers
33		Promote multi-use (hiking, equestrian, mt. bike) trail opportunities using existing surfaced and non surfaced roads
34		Consider allowing mt. bike use on short segments of existing single tract trails where conditions permit and loop trail connections can be enhanced
